

General Specifications

Length OA	7.0m	23'
Beam OA	2.35m	7'8"
Draft (outboards up)	0.4m	1'4"
Towing Weight (dry)	2200-2600kg	
Power Range	2 x 115hp	
Fuel Capacity	2 x 180l	

Standard Construction

Hand laminated fibreglass hull using high strength multiaxial cloth, and isophthalic resins, and foam filled floatation.

Deck and other mouldings of sandwich or cored construction, with moulded bow sprit, two large anchor lockers, and walk through transom with swim and boarding platform. Armacell bulkheads.

The vessel has the optional extra overlay for VE resin on hull, which is standard on all vessels from this build onwards. VE is an osmosis preventative.

625 Model
